The 30'x 1-3/8" hose provides excellent airflow. This hose handle permits you to grip at several points on the handle to match where and how you want to clean. A full 360 degree swivel eliminates wrist strain, stops kinking, and increases hose life. Rotate the handle 90 degrees for easy under furniture cleaning. (GSH-630)

12" Companion Electric Brush

The Companion powerhead is lightweight and narrow. Its 12" cleaning path and a metal brush roll provide solid performance plus maneuverability. It has a brush monitoring window to troubleshoot performance and identify clogs, a foot pedal for easy on/off operation, large wheels, a wrap-around bumper, swivel neck, and a flat belt for quick changes.
